

**ALTERNATIVE ENERGY RESOURCES  
RATE SCHEDULE 13**

*Rates shown on the Rate Schedules are set by the Grant PUD Commission and are subject to change at the discretion of the Commission.*

**AVAILABLE:**

To all metered retail customers within the District's retail service territory who wish to purchase Alternative Energy Resources.

**ALTERNATIVE ENERGY RESOURCES PROGRAM.**

This program provides the customer with the voluntary option to purchase Qualified Alternative Energy Resources, as required by RCW Chapter 19.29A. The District may provide alternative energy resources from any qualifying resource.

**EFFECTIVE:**

With meter readings on and after July 1, 2017.

**MONTHLY BILLING RATE:**

Charges for blocks of alternative energy will be billed on the next billing cycle at the following rate:

Additional Energy Charge:      \$0.75 per 100 kWh Block

One block of alternative energy consists of 100 kWh of a Qualified Alternative Energy Resource. Base rates and other terms and conditions of electric service shall be governed by the Rate Schedule under which the customer takes electric service. This Rate Schedule does not provide electric service or electric power. The charge for blocks of alternative energy is in addition to the appropriate Rate Schedule Energy Charge for the requesting customer.

**TAX ADJUSTMENT:** The amounts of any tax levied by any city or town, in accordance with RCW 54.28.070, of the Laws of the State of Washington, will be added to the above charges.

**SERVICE:** Customers signing up for Grant PUD's Alternative Energy Resources Program will be required to do so in blocks of 100 kWh on a monthly basis. There is no limit to the number of 100 kWh blocks a customer may request. Customers may sign up in one of the ways described in the District's customer notifications. The billing provisions of the District's Customer Service Policies will apply except for the following:

1. If the customer remits a partial payment, that payment shall first be applied to charges for blocks of alternative energy with any residual amount applied to all other charges due the District.
2. If a customer fails to pay for blocks of alternative energy, the District shall immediately discontinue selling blocks to that customer. However, the Customer will not be subject to termination of service for non-payment for blocks of alternative energy.
3. First and/or last month bills will not be prorated.
4. Voluntary contributions will also be accepted and will be subject to the same service rules and regulations as customers who contribute in 100 kWh blocks.

For each block of alternative energy purchased, the customer will have the right to claim that it has acquired renewable resources under the District's program. A purchasing customer may not resell or otherwise transfer a block to any other party for any purpose.
