

POWERED BY TECHNOLOGY

AMP BENEFITS

Timely Turn On's/Off's

Reduced Operating Costs

Enhanced Privacy

Remote Meter Reading

Energy Theft Prevention

Improved Outage Response

AMP BY THE NUMBERS

\$14.9m

investment over 3 years

6 years

after completion, the project will have paid for itself

49,000

meters will be enhanced throughout Grant County

\$35.6m

in estimated cumulative savings over 10 years

Improved Outage Response

If an outage occurs, the advanced meters can allow the PUD to locate and resolve the problem and restore power even more quickly.

Better Billing Accuracy

At pre-determined, regular intervals, your meter will send the PUD data on how much energy you've consumed, eliminating the need for a PUD employee to enter your property and manually read your meter. This gives us more accurate and timely information to prepare your bill.
